

# LOST EXHIBITIONS

---

3-4 AUGUST 2012, JEDNOTA GALLERY ČABINY

<https://bredarte.blogspot.com>

We have been notified that these exhibitions do no more exist.

The elders have fed us with legends about the remnants of something which was so big and delightful. They were calling them "the lost exhibitions".

They were impressive, big pieces from which we can only see some parts of them. The other parts were destroyed, censored, robbed or decomposed in the forgotten gallery depots.

The lost exhibitions are rescued or found remnants of something that was a big thing, a whole, but later got crumbled. Rescued or found pieces of something that was intended to become a big thing, a whole, but didn't reach the point of being accomplished.
